Introducing The Puppy Pack

Our new puppy pack will give you a wonderful record of your puppies growing up, and preparing for their life in the outside world.

new

The first eight weeks of a dog's life are some of the most enchanting and important weeks, and are over far too quickly; and many of the eventual owners of the pups never get to see them at this adorable stage.

With multiple visits to capture your puppies from birth until they are ready to leave for their new homes, we can provide you with a lasting momento of this wonderful time and a lovely gift box for your puppy to take to it's new home.

Each gift box will contain a 30 page book charting the development of the puppies, along with a USB drive of images all ready to upload to social media sites, and a pack of puppy treats for the star of the show.

The Puppy Package is priced at £300, inclusive of all photo sessions, post processing and editing, and creation of the puppy books and USB drives.

This price includes puppy boxes for up to five puppies, and special box for the puppy parents. For larger litters, additional boxes can be ordered for an additional £25.00 per puppy; for smaller litters the price can be adjusted accordingly.

How It Works:

As it gets closer to the date you are expecting your puppies to arrive, give us a call to discuss your requirements - we decide how often you wish us to visit, we would recommend three visits: 2 weeks, 4 weeks and 6 weeks; and we book you in for the photo shoots.

We will come along on the agreed dates and photograph the puppies and Mum as well if you wish. Once we get all the shoots completed we get to work designing your gift boxes. Our aim is to have the gift boxes ready for when your puppies are ready to leave the nest at 8 weeks old.

So, give us a call on (01803) 859700 or drop us an email at info@shootingthedog.com
